

## Some Complexes of N-Aryl Furfural Nitrones with Co(II), Ni(II), Cu(II), Zn(II) and Cd(II) Chlorides

By Amer Taqa

Grin Verlag Gmbh Apr 2013, 2013. Taschenbuch. Book Condition: Neu. 210x148x2 mm. This item is printed on demand - Print on Demand Titel. - Scholarly Essay from the year 2011 in the subject Chemistry - Anorganic Chemistry, printed single-sided, grade: 3, University of Mosul (DBS), language: English, abstract: Some new metal(II) dichloride complexes with the ligands substituted nitrones of the general formula  $[ML_2Cl_2]$ , where  $M = Co(II), Ni(II), Cu(II), Zn(II)$  and  $Cd(II)$ ,  $L = OCH=CHCH=C-CH=N(O)C_6H_4X$  ( $X = H, p-CH_3, CH_3O, CH_3CO, F, Cl$ , and  $Br$ ) have been prepared and characterized by elemental analysis, IR,  $^1H$ ,  $^{13}C$  NMR and Vis/Uv spectroscopy. The IR spectral data showed that the nitron ligands coordinated with the metal ion through the most active atom of the N-oxide to give square planar coordinate ( $Cu, Ni$ ) complexes and ( $Zn, Cd, Co$ ) tetrahedral complexes. No correlation was observed between the N-O vibrations stretching frequency (N-O) of the complexes and the Hammett constants. 32 pp. Englisch.

### Reviews

*The publication is easy to read through, safer to comprehend. It is actually loaded with wisdom and knowledge. It has been printed in an extremely simple way and is particularly simply right after I finished reading through this pdf, where it actually modified me, affected the way I believe.*

-- **Ms. Clementina Cole V**

*This is the very best publication I have got read until now. It is definitely simplified but shocks within the fifty percent of the pdf. You may like how the article writer created this pdf.*

-- **Rosario Durgan**
