It shares effective techniques regarding verbal and nonverbal communication. This is inclusive of the systematically developed QSC strategy for effective verbal communication that can be used in both personal and professional environments. It also introduces the basics of the dynamic technique known as the Fence. This technique has been developed over many years of studying human behavioral patterns by Shoto-Chi s founder. This technique integrates NLP (neuro-linguistic programming) to assist in the control of one s personal space. This takes a logical approach and is a proactive guide aimed at resolving conflict prior to physical engagement whenever possible.
