

Bulletin of the American Museum of Natural History, Vol. 27: The Orders of Mammals (Classic Reprint)

Filesize: 7.31 MB

Reviews

This pdf will not be simple to start on reading through but extremely enjoyable to see. I have read and i also am sure that i will planning to read through again once more in the foreseeable future. You wont really feel monotony at whenever you want of the time (that's what catalogues are for relating to if you request me).

(Mallory Kertzmann V)

BULLETIN OF THE AMERICAN MUSEUM OF NATURAL HISTORY, VOL. 27: THE ORDERS OF MAMMALS (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Bulletin of the American Museum of Natural History, Vol. 27: The Orders of Mammals In 1904 Professor Henry Fairfield Osborn requested his assistant, the present writer, to prepare a brief outline of the history of the ordinal classification of the mammals for use in the Columbia University course on the Evolution of the Mammalia. The preliminary sketch having raised so many interesting problems relating to important principles, Professor Osborn suggested the continuation of the work and very generously assumed the chief expense of the investigation. Part II, dealing with the genetic relations of the mammalian orders, was begun in 1907 and has been carried on through the generosity of Professor Osborn and of Charles Gregory, Esq., to whom the author's cordial acknowledgments are hereby tendered. Part I of the present work is offered not as an exhaustive history of the subject but as a series of stages in the history of the ordinal classification of the mammals, i. e., as an outline with sufficient details to make clear the more important steps. The main interest of the writer has been centered, however, not so much upon the history as upon the actual problem of ordinal classification, which involves the theme discussed in Part II, namely, the evolution and genetic interrelations of the mammalian orders. This problem in its manifold aspects has long engaged the attention of the writer, especially in connection with his duties as assistant and lecturer in the above mentioned university course on recent and fossil mammals conducted by Professor Osborn. It also continually recurs at the American Museum of Natural History, where during the last decade the writer has had the...
